

## Introduction

Thank you for purchasing Nordic Cab Baby Seat. This manual is for installation of Nordic Cab Baby seats only in a Nordic Cab Explorer. Read the manual carefully. If you are unsure of the installation of your baby seat, contact your Nordic Cab dealer before using it.

### Usage information:

- For age between 0-9 months and under 9 kg.
- Can only be used in Explorer model 2012 or newer.

### IMPORTANT!

**Babyseat cannot be used when  
Cycling.**

### Content:

Babyseat +

Velcro and buckle straps ("Female") x6 →

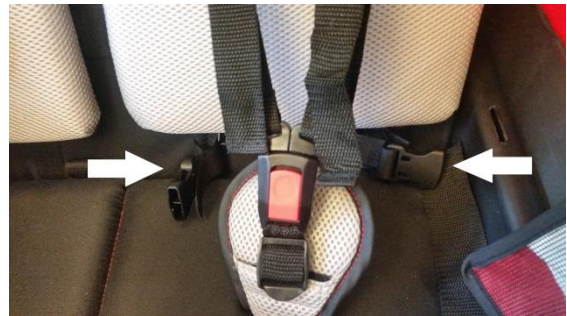

Velcro and buckle straps ("Male") x 6 →

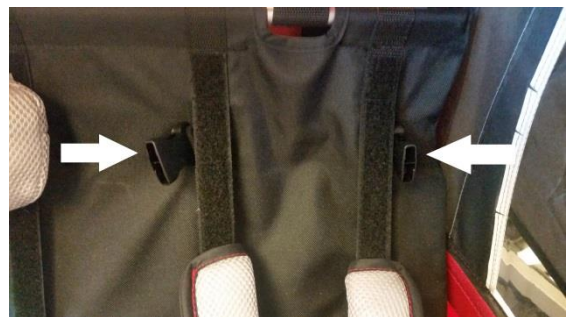

1. Fasten the bottom straps ("Female")

2. Fasten the mid straps ("Female")

3. Fasten the top straps ("Female")

#### 4. Safety harness.

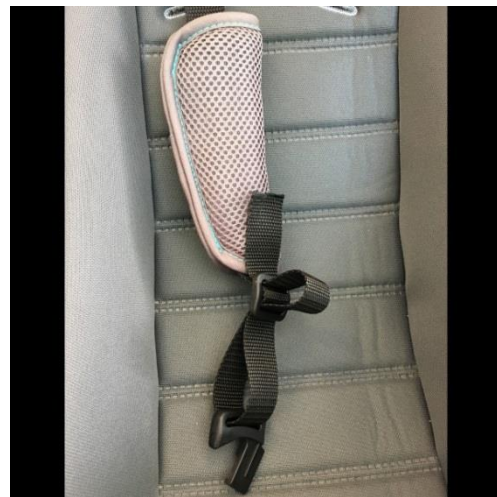

a) Remove the shoulder pads from Explorers safety belt. Fix the shoulder pads on baby's shoulder straps.

a)

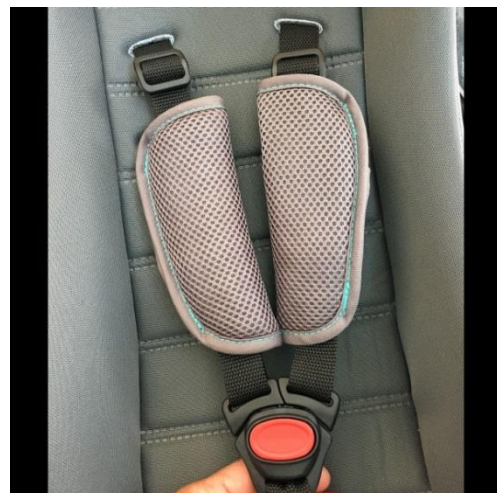

b) Secure the shoulder straps to the safety lock. "Important"! Adjust the shoulder straps when the child is placed in the baby seat

b)

c) This is what the safety belt should look like when the shoulder pads are fitted correctly.

c)

#### **IMPORTANT!**

- Make sure the child is securely fixed in the safety belt before using the trailer.

## 5. Assembly of Baby seat in trailer

a) Remove the grey cover on the baby seat.  
Attach 3 pairs of male clips through baby seat  
the way you look at the picture a).

a)

b) Now you can fix baby seat into the carriage  
with the clips. If you have trouble attaching  
clips, you can adjust the length of the “male  
“clip with the Velcro.

b)

### **IMPORTANT!**

- Always ensure that the seat is secure and  
fixed in the trolley before it is put into use.
